## **ABOUT THE COMPANY**

The company was established in 1996. The whole process began with the production of plastic packaging. Later it was decided to start the manufacture of goods for children's creativity. At first it was a small workshop for watercolours production. In 2004 gouache paints and modelling clay were put into mass production, in 2015 was start of production of acrylic paints – for kids, art and for décor. 2016 – 2020 we started a production of art oil paints, polymer clay; finger paints for the youngest, acrylics fabric and textile, art watercolors.

Today ZPG is a dynamically developing company which includes technologically perfect equipment, professional team of managers, technologists and industry experts. All this allows performing any number of orders.

Constantly working on expanding the range of products, we care about safety. It's our main focus. All the products are absolutely harmless as are made of raw materials of natural origin. The quality of products is constantly monitored by the team of the quality department and it complies with the latest safety requirements.

The quality of products is confirmed by European quality certificates and local documents (EN71, ISO 9001:2015) and meets all the requirements of the Directive 2009/48/EC on the Safety of Toys.

GOODACHE PAINTS

## GOUACHE FINGER PAINTS

Finger painting is a fascinating process which helps to develop children's tactile sensation. So we create this paint taking into account the specific needs of a child. Pearlescent finger paint opens additional opportunities for creativity for the youngest customers.

Sets are packed in cardboard case with 6 jars in a volume of 40 and 60 ml.

Available in sets of 6 regular colours in 40 and 60 ml and in sets of 4 regular+ 2 pearl (silver, gold) in 40 and 60 ml.

- While drawing baby's fingers are massaged, paints develop tactile sensitivity, which contributes to the development of kid's imagination and speech.
- Does not trip, does not form spots.
- Dries quickly. The paint acquires a matte velvety surface after drying.
